

We received the following communication yesterday, through the Post Office :

MR. EDITOR—On my arrival in town to spend the summer, after being closely engaged through the winter and spring months, I am completely discouraged to find the Tariff Bill has passed. Let me particularly request you (not for myself alone) to recommend, through your useful paper, to my brother Planters, to come to a firm resolution not to purchase any Northern Cloth for their domestics.

A LARGE PLANTER.

June 5, 1828.
